PV-ezRack SolarRoof

Reliable, robust roof mounting system with high quality components designed for the harshest conditions.
PV-ezRack SolarRoof

PV-ezRack SolarRoof has been developed for residential PV installations on tin and tile roofs. The components are easy to install and can be used for flush as well as tilted systems, on a large variety of roof types. The interfaces, rails and clamps use high quality, robust and corrosion resistant materials including structural grade aluminium alloy (AL6005-T5) and stainless steel (SUS304).

Main Benefits

Quick and easy installation
Innovative and internationally patented, the Z-Module technology is used in almost all SolarRoof components. The Z-Module provides a quick, easy and safe installation method. It can be inserted into the rail at any given point, and secured with just three hand grips.

Versatility
A large variety of roof hooks, tin roof fixings, tilt legs and adapters help ensure that you will find a suitable fixing method for almost every roof, where fixing with or without penetration is required.

Wide range of tilting
With three adjustable tilt legs, these parts can tilt panels from between 10-80 degrees. Through its innovative design, the tilt legs can cope with all common purlin distances.

Universal
SolarRoof has suitable mid and end clamps for every size of solar panel including frameless, thin film panels or special clamps for cyclonic regions. In the growing range of clamps, cable clips, adapters and accessories you’re sure to find the parts you require for your residential rooftop mounting needs.

Universal Clamp
PV-ezRack Universal Clamp, with dual functionality (inter and end clamp), is applicable with most common framed PV modules from 30 mm to 83mm height, int built grounding clip is also available.

Inter and End clamps
The PV-ezRack Inter and End clamps offer a simple, easy to use and robust fixing of the PV panels (of all sizes) using the patented Clenery Z-module. Compatible clamps for thin film modules are also available.

Adjustable tilt legs
One of Clenery’s first innovations, this universal design allows a wide range of tilt angles with only one component. The tilt leg is made entirely of structural grade aluminium profiles connected with stainless steel fasteners.
